INTRODUCTION - THE ERASMUS+ PROGRAMME 2021-2027

The mobilities for Traineeship 2022/2023 are governed by the legislation concerning the new seven-year period of the Erasmus+ Programme (2021/2027).

Art. 1 General information
Erasmus+ for Traineeship is the European Union Program in the fields of education, training, youth and sport for the period 2021-2027 which supports the international mobility of students and future new graduates, with the aim of improving the level of transversal and professional skills, with particular attention to their relevance to the labor market and their contribution to the creation of a cohesive society (the "Programme").
Grants from the Erasmus+ for Traineeship Program are awarded for carrying out the following activities at a foreign host institution:
A) curricular internships
B) extra curricular internships

1.1 Training objective
The educational objective expected from the internships offered by this Call, which constitutes a preferential criterion in the evaluation of the candidacy, is the development of professional skills and transversal skills useful for significantly enriching the curricular profiles, and capable of increasing employment prospects also autonomy of the participants.

1.2 Beneficiaries
Students of any field of study who, at the time of submitting the application, are regularly enrolled for the program and who are eligible to participate in this call for the assignment of 34 Erasmus Traineeship mobility contributions lasting to 2022/2023 at the University of Tuscia:
- from the 2nd year onwards if enrolled in a Bachelor degree course, in a single-cycle master's degree course, and in any case enrolled no later than the 2nd year with respect to the years envisaged by the legal duration for the achievement of the aforementioned degrees;
- from the 1st year onwards if enrolled in a master's degree course (2nd level, two-year), and in any case enrolled no later than the 2nd year with respect to the years envisaged by the legal duration for the achievement of the aforementioned degree.
- students in the last year of bachelor's, master's and single-cycle master's degrees can apply to participate in the call only before obtaining the degree. These students can decide to carry out the internship:
  - before obtaining the qualification, and in such cases at the time of departure, regularization of their enrollment in the a.y. 2022/2023 may be requested;
  - the internship will take place, under penalty of forfeiture of the scholarship, within twelve months after the graduation, provided that they have submitted their application to the call with student status;
- enrolled for the a.y. 2022/2023 from the 1st year onwards, in PhD courses, subject to authorization by the course/school coordinator/director. PhD students who benefit from the scholarship will have to choose whether to use the increase foreseen for the stay abroad, or the Erasmus+ funding from the European Commission. They are not eligible for both contributions;
- citizens of a Member State of the European Union, of another Country participating in the Program or of Third Countries;
- meet all the constraints relating to credits and grade point average listed in Annex I of this notice "Assessment criteria", Annex 1 of the Call.
1.3 Admission requirements and reasons for forfeiture of the scholarship

- have a knowledge equivalent to the minimum level B1 of the language(s) of the country of destination or of a language that is accepted by the host institution as a target language, as required by art. 8;
- have a minimum number of 60 mobility days available for internships, according to the provisions of the Erasmus+ Program in their study cycle and therefore have not already used the maximum number of months of mobility allowed by the Erasmus+ Program in their study cycle;
- students who intend to carry out the internship during the course of study must maintain the status of "student" for the entire duration of the internship; the achievement of the title during the internship will result in the forfeiture of the scholarship and the return of the sums received;
- not be recipients of other funding for stays abroad disbursed on European Union funds that overlap, even partially, with the Erasmus+ internship period (to be declared when accepting the scholarship).

The absence of any of the aforementioned requisites will determine the exclusion of the candidate from the continuation of the selection. Candidates are admitted to the selection subject to verification of the prescribed requirements. The University of Tuscia can order at any time, with a motivated provision, the exclusion from the selection due to lack of the admission requirements prescribed by this announcement.

Art. 2 Period, duration of the internship and blended modality

The Erasmus+ program allows a minimum stay abroad of 2 months (60 complete and consecutive calendar days) and a maximum of 12 months; contributions from the University of Tuscia have a maximum duration of 4 months (120 days). Internships can be carried out after the publication of the final selection ranking and must be completed by the deadline of 30 October 2023.

Any period of closure for holidays of the host organization must not be counted for the purpose of reaching the minimum period of stay.

In addition to the traditional (entirely physical) mobility, it is also possible to carry out the traineeship activities according to the blended method, which includes both a period of carrying out the activities remotely and a period of physical mobility in the host organization. The physical component of the mixed mobility must respect the minimum duration, i.e. 2 months, for long-term mobility. It should be noted that the economic contribution will be recognized only for the period of physical mobility, based on the duration of the same.

The sum of the Erasmus monthly payments already made and those to be made cannot exceed 12 months for each three-year, master's or third-cycle study course and 24 months for single-cycle degrees.

Art. 3 Destination countries

The Erasmus+ for Traineeship mobility can be carried out in host organizations and institutions of the Member States of the European Union and of the other Program Countries listed below:

Those who do not have contacts with companies can request the intermediation of the Mobility and International Cooperation Office, which will take place only for the benefit of the successful assignees, on the basis of the offers, the availability of companies suitable for their professional profile, the acceptance of the candidacy by the same organization and the related "Learning Agreement for Traineeship" work plan.

The intermediation of the Mobility and International Cooperation Office does not constitute a guarantee of finding a host company.

Art. 9 Online Linguistic Support (OLS)
Language learning is one of the objectives of the Erasmus+ program for the protection of linguistic diversity and for the development of intercultural skills. The Erasmus+ Program offers students the opportunity to improve their language skills, before and during the mobility, through free online courses via the new EU Academy platform, available at the following link: https://academy.europa.eu/local.euacademy/pages/course/community-overview.php?title=learn-a-new-language
Students and recent graduates selected for an Erasmus mobility towards a Program Country or a Third Country not associated with the Program (key actions KA131 and KA171) who carry out a mobility lasting more than 14 days, must take the initial linguistic assessment test in the language of the mobility before the start of the mobility itself, except in duly justified cases, for example language not available in the OLS. With the new OLS, students and recent graduates can choose one or more languages, with no restrictions on the number of courses they intend to take, and will be able to test their level of language proficiency during or after the mobility. Currently, there are 5 languages available: Italian, English, Spanish, German, French, from level A1 to B2. Gradually the service will include the 29 languages on all levels of learning.
More information at the link: https://www.erasmusplus.it/istruzione_superiore/mobilita/online-language-support/.

In case the student wishes to extend the period of stay initially authorized by means of the Financial Agreement, one month before the assigned deadline date, the student must send the "Request for authorization to extend the scholarship" form completed and signed. It is specified that no interruptions are allowed between the already authorized traineeship period and the one for which the extension is being requested.
The extension period can be financed only in case of availability of funds or "zero grant".

**Art. 14 Upon return from mobility**

Within 30 days following the return from the mobility, the trainee must present the Traineeship certificate issued by the host institution to the Mobility and International Cooperation Office, and have completed the following questionnaires:

**Art. 16 Certification and recognition**

Internships within the "Erasmus Traineeship" project are attested by the Traineeship certificate, a document issued by the host institution which certifies the actual dates of carrying out the internship activity and reports the judgment on the work carried out in compliance with what was agreed in the "Learning Agreement for trainees".

On the basis of these certifications, the University of Tuscia undertakes to recognize in the career the internship activity carried out abroad, according to the provisions of the University Regulations for Erasmus mobility, and of the educational regulations of the relevant study programmes. The attribution of the number of credits for the activities carried out is entrusted to the educational structures to which they belong. If the internship is not included in the study plan, this may be recognized in the form of additional credits. Except when the internship is carried out after graduation, the mobility period will be certified in the Diploma Supplement.

The University of Tuscia will not be able to recognize the training period carried out abroad in the presence of:
- negative judgment in the traineeship certificate on the activity carried out;
- failure by the trainee in the procedures for submitting the mandatory documentation for mobility;
- incorrect behavior of the trainee towards the host organization and formally certified by the latter;
- interruption of the internship and mobility activity before the minimum period without a valid and proven justification.

In the above cases, the full refund of the scholarship received by the beneficiary may be requested.

Scholarship assignees, before departure, are required to obtain information on the recognition of credits from the Erasmus Coordinator of the Department.

The University of Tuscia rewards students who have participated in the Erasmus Mobility program by increasing the score assigned to students at the time of graduation by 1 point.

The minimum period of internship at the Host Organization, necessary for the recognition of the mobility and to be able to benefit from an Erasmus contribution, is 60 days, unless otherwise provided by the Indire National Agency. The interruption of the mobility before this period will result in the refund of the amount received according to the provisions of the Indire National Agency, except in proven cases of force majeure.

Art. 18 Ranking scrolling
In the event of renunciation by the grant recipients, the ranking of suitable candidates will be scrolled, the suitable candidate placed in the position immediately following that of the renouncing candidate in the final ranking will take over. The rankings will also scroll if additional funding becomes available. In the event of exhaustion of the rankings against the residual availability of contributions, the deadlines for the presentation of applications may be reopened. Interested candidates will be notified via email of the successful scrolling. Art. 19 Insurance: third party liability and accidents
The accident and workplace liability insurance, which the student automatically benefits from when enrolling at the University, is extended, in the same manner, for the entire internship period abroad at the host institution.
