

Formati al Porto

Introduction

UNIVERSITÀ
DEGLI STUDI DELLA
TUSCIA

Sustainable logistics and intermodal transport

May 18th & 25th

Hybrid Version

CONFITARMA
Confederazione Italiana Armatori

TRAIANA

PORTMOBILITY

Course objectives

- Provide students attending the first upper cycle of international economics, transport and logistics, belonging to the training centers in the area between Lazio and Abruzzo, to know first-hand the port of Civitavecchia, its infrastructures, logistic equipment and operations.
- Allowing companies in the sector, through associations, to show the characteristics of their business and the professional profiles they need to develop properly.
- Motivate companies to hire students through internships.

Participant profile

University students, TVET students and those attending the last year of the upper cycle with a course of study relating to transport, logistics, circular and international economy, belonging to the centers affiliated with the Formati al Porto project.

Course contents

- Port Logistics Community
- Short Sea Shipping
- Intermodal Logistics and Motorways of the Sea
- Shipping Market and Requirements
- Port Operators
- Logistics and Environment

Workshop

- Maritime Visit
- Visit to AutoMar Logistics
- Visit to CFFT Terminal
- Visit to Rome Container Terminal
- Visit to Cruise Terminal "A. Vespucci"
