Summer School
Biotech Training
Viterbo, 11 – 15 September 2023

Biotech Academy in Rome
Addressing Global Talent Shortage in the Biotech Industry
Join us for an exciting and transformative journey into the world of biotechnology at the Summer School of the Biotech Academy in Rome!

Immerse yourself in a five-day intensive program designed to enhance your knowledge and skills in the world of biotechnology. Our Summer School offers a unique opportunity to learn, explore, and network with experts and fellow enthusiasts in the beautiful city of Rome. Our experienced instructors and industry experts will guide you every step of the way, ensuring a transformative learning experience.

**Practical qPCR Training Course:** Learn the fundamentals, master the experimental setup, and analyze real-time data. Gain valuable insights into the practical applications of qPCR and its significance in various fields of biotechnology. **Teacher:** Saba Khan, Director @Tiger Team Lab

**Design of Experiment (DoE):** Unleash your scientific creativity during our interactive Design of Experiment (DoE) session. Engage in thought-provoking exercises that challenge your problem-solving skills. Discover how to optimize experiments, analyze variables, and achieve meaningful results. **Teacher:** Ronan O’Kennedy, Owner @ROK Consulting

**Virtual Reality Gene Therapy Experience:** Step into a cutting-edge Gene Therapy facility through immersive Virtual Reality (VR) technology. Witness firsthand how gene therapies are developed and produced. Expand your understanding of this groundbreaking field and its potential to revolutionize medicine. **Teacher:** Leonardo Sibilio, CEO @Biotech Academy in Rome

- qPCR (3 days)
- DoE (1 day)
- Virtual Reality (1 day)
- DoE + VR (2 days)
- qPCR + DoE (or VR) (4 days)
- Full Course (5 days)
