Ibridazione e successi evolutivi: dagli insetti all'uomo

Professor **Giuseppe Nascetti**, Professor Emeritus of Ecology and former Deputy Rector and Department Chair, will deliver a lecture within the framework of the **General and Population Ecology** course.

This represents a unique academic opportunity for students to deepen their scientific understanding of Ecology, with a particular focus on the mechanisms of species formation through hybridization and their eco-evolutionary success.

MAY 9TH 2025

10:30 AM - 12:30 PM

*To attend remotely,
registration is required:*
