Oct 2016 - July 2020

Dipartimento Ingegneria Società e Impresa - DEIM at Univeristy of Tuscia

RESEARCH INTEREST

My research focuses on the social dimension of the energy transition. Renewable energy is one of the key elements of energy transformation, but it requires collaboration among different institutions, firms, and households. Networking and cooperation are crucial for technological development and environmental action to reduce human impact. I am interested in the quantitative and qualitative effects of the energy transition.

PUBLICATIONS

Valentina, Ceccarelli, Correani Luca, and Morganti Patrizio. "Heterogeneity and geographical location in Italian Business Networks." *Journal of Industrial and Business Economics* 51.4 (2024): 793-814.
