The UNITUS TNE

Experience in Transnational Education, Mediterranean Cooperation, and Smart Digital Tools

09/06/2026

Giorgio Scavino – *Project manager TNE IMPACT*
International Staff Week 08-12 June, 2026

Background

- The Italian Ministry of University and Research (MUR) has allocated **€50 million** to support **Transnational Education (TNE)** initiatives. These initiatives fall under **Sub-measure T4 – Transnational Initiatives in Education**, part of **Investment 3.4 “University Education and Advanced Skills”** within **Mission 4 (“Education and Research”)** of the PNRR.
- Projects must involve **non-EU countries**, with priority given to strategic regions such as the **Mediterranean**, the **Balkans**, **Africa**, and **Latin America**. Areas of “particular relevance” include **gender equality** and **environmental protection**, in line with the **Do No Significant Harm (DNSH)** principle.

3 TNE NRRP projects active in UNITUS

MOVING ITALIANNES

Objective: Promote the innovation capacity of the higher education systems of Italy and Argentina through *student and staff mobility*, joint training initiatives, and strengthened academic cooperation.

Focus: Exchange of expertise, co-teaching, short-term mobility, shared educational models.

GREEN EDUCATION

Objective: Support the co-development of educational programmes on sustainability, ecological transition, biodiversity, renewable energy, and climate action.

Focus: Joint modules, microcredentials, summer schools, virtual mobility, and shared research-training ecosystems aligned with EU Green Deal priorities.

IMPACT

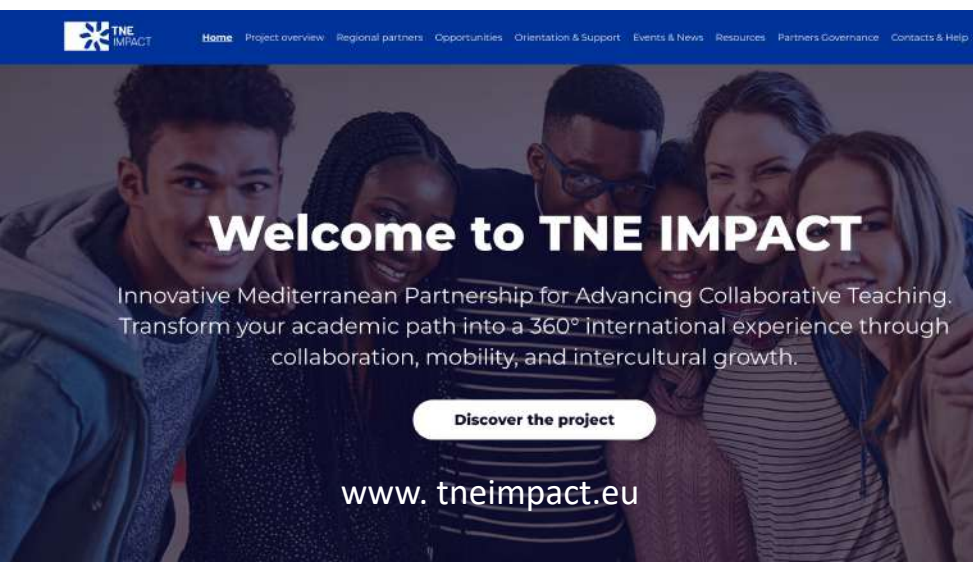

Objective: Enhance international competitiveness and visibility of Italian universities by exporting high-quality academic models and building long-term partnerships with non-EU institutions.

Focus: Capacity building, institutional strengthening, co-designed curricula, and the adoption of Italian best practices in teaching, assessment, and student services.

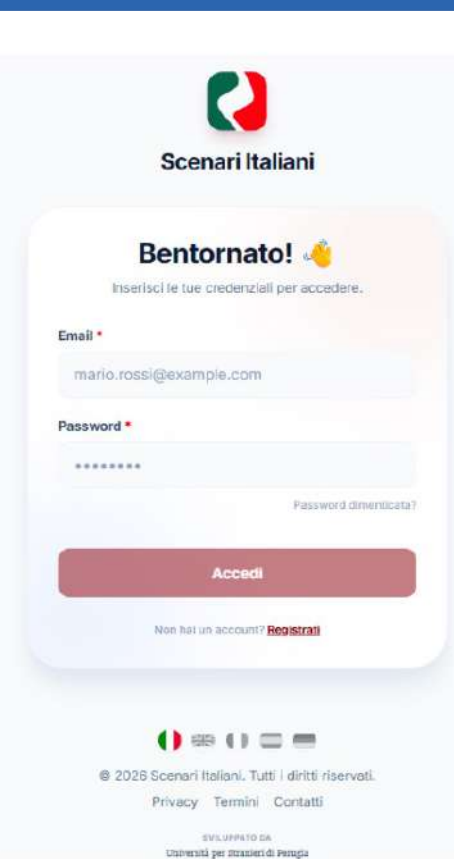

How can universities today transform international cooperation into real shared learning experiences that connect people, territories, and technologies in a single ecosystem?

Strangozzi al tartufo

Sono cuoco in una trattoria. Faccio gli strangozzi con acqua e farina. Spesso uso pochi ingredienti. Ma quando metto il tartufo tutto cambia.

Il tartufo è un piccolo fungo che cresce sotto terra. Lo cerca il cane con la persona. Il tartufo ha un profumo forte. Io taglio il tartufo sopra la pasta calda. Il calore fa uscire il profumo.

Metto un bel di burro e olio. Non metto

Suggestions

- Good idea: you know facts from the text (truffle under ground, searched with a dog).
- Check small words and spelling (es. un'esperienza, cosiddetto).
- Write one clear sentence: say who looks for the truffle and what they do (go to the woods, use a dog).

PARZIALE 3/6 punti

The answer is understandable and related to the text but has mistakes and does not clearly say who does the action.

Participatory engagement and territorial innovation

- **Monitor the environment:** Engage in participatory mapping of the areas surrounding our heritage sites.
- **Bridge the gap:** Share georeferenced observations and suggestions directly with local authorities and civic associations.
- **Drive territorial innovation:** Contribute to sustainable development through digital tools and collaborative practices.
- **Empower the community:** Become an active member by providing your unique contribution to the local ecosystem

What can we do with the app?

Spot 📍 Record specific observations or share interesting findings (e.g., photos).

Track Me 🚶 Track your movements to help us better understand mobility patterns and related trends.

Points of Interest (PoI) 📌 Interact with local surveys and key places.

Tasks Board 📋 Complete missions and contribute your ideas and insights.
