Erasmus Study Mobility Call 2027/2028

University of Tuscia

110 mobility grants for a standard duration of 5 months.

Apply online via GOMP by 20 March 2027 at 23:59.

Who can apply

Unitus students enrolled for 2026/2027 in Bachelor's, Master's, single-cycle or PhD programmes. Assessment criteria: Annex 1. Italian postgraduate Master courses, specialisation programmes and individual courses are excluded. PhD students need their coordinator's or director's authorisation.

Erasmus limit: 12 months per cycle, or 24 for single-cycle degrees, including previous mobility. At application, document at least B1 proficiency and the host's required level under Article 2.3. Overlapping EU funding for stays abroad is prohibited; PNRR-funded PhD scholarships are subject to the call's incompatibility rules.

Mobility types and eligible period

Long-term mobility: 2–5 consecutive months (60–150 days); extensions require prior authorisation from both universities. Short-term mobility: 5–30 consecutive days for PhD students and participants in BIPs in which Unitus is a partner. For first- and second-cycle students, BIPs include a compulsory virtual component and at least 3 ECTS credits. Eligible period: 1 June 2027–31 July 2028.

Main financial contributions

EU long-term grant: €400/month for Group 1 countries; €350/month for Groups 2 and 3. EU fewer-opportunities top-up: €250/month.

Economic disadvantage threshold: ISEE/ISEEUP ≤ €28,339.88. Actual-cost support for physical, mental or health-related needs is independent of ISEE: contact the Mobility Office.

Unitus top-up for long-term mobility of at least 60 days

ISEE or ISEEUP	Monthly amount
Up to €28,339.88	€350
€28,339.89–€40,000	€250
Over €40,000	€0

The Unitus top-up depends only on ISEE/ISEEUP, with no minimum CFU or restriction for enrolment beyond the programme's standard duration. It covers certified days up to 150; partial months are paid at 1/30 of the monthly rate per day. No top-up for extensions beyond 150 days.

Short-term mobility: €79/day up to day 14 and €56/day from day 15 to day 30. For students with fewer opportunities: a one-off top-up of €100 for 5–14 days or €150 for 15–30 days. Travel support varies by distance and green/non-green travel mode; retain all travel documents.

Eligible activities and recognition

Courses, examinations, degree or doctoral thesis preparation, and curricular traineeships must be included in the Learning Agreement. Thesis preparation abroad earns no CFU; final-examination credits remain separate. Other successful activities are recognised via ECTS and GOMP (1 CFU = 1 ECTS). No examinations or final graduation at Unitus during mobility.

How to apply and how places are allocated

One GOMP application; no paper documents. Initial allocation prioritises eligible Double Degree applicants under Article 2.5, within the 110 places and each Department's quota of 10. Quotas are then completed and remaining places allocated by the single University-wide ranking. Subsequent allocations use that ranking without reinstating quotas, subject to destination and Double Degree requirements.

Mobility checklist 2027/2028

Eligibility and choice of destination

☐ Unitus enrolment for 2026/2027, eligibility requirements and assessment criteria in Annex 1 checked; remaining Erasmus entitlement checked.

☐ Host language and level requirements checked. One document allowed under Article 2.3 uploaded, issued no more than 3 years before the deadline: recognised international certificate, CLA certificate, language examination record from GOMP (B1 for Bachelor's; B2 for Master's or single-cycle degrees), OLS or ILO certificate, or Annex 2 self-certification. Missing or inadmissible documentation results in exclusion. Preparatory CLA courses are open to all students between May and July 2027.

☐ Course offerings, ISCED field, partner deadlines and requirements checked. PhD students select only destinations marked "dottorando". For Double Degrees, admission to the pathway and specific requirements checked; for ELLS, active agreements and available places checked.

ISEE and application by 20 March 2027 at 23:59

☐ ISEE/ISEEUP relating to enrolment for 2026/2027 uploaded to GOMP by the deadline, including for students and PhD students exempt from submitting it for tuition fee purposes.

If the information is not available by the deadline, neither the Unitus top-up nor the EU top-up based on socioeconomic circumstances will be awarded. For physical, mental or health-related needs, contact the Mobility Office.

☐ One application completed on GOMP: "Carriera, Piano di Studi, Esami" > "Mobilità internazionale" > "Studio". Destinations ranked by preference and previous mobility periods declared.

☐ Application completed and submitted by 20 March 2027 at 23:59. No changes or additions after the deadline, except checks requested by the University in the cases provided for in the call.

Selection and acceptance

☐ Result and allocated destination checked on GOMP; place accepted within 5 days of publication or notification. For any subsequent allocation, deadlines shown on the portal observed.

Students may decline a destination and compete for another stated preference according to ranking and availability. Failure to accept constitutes withdrawal from that place. Withdrawal carries no penalty; withdrawal after acceptance must be promptly notified to the Office.

Before departure

☐ Learning Agreement completed by 20 April 2027 with support from the Erasmus Coordinator and approved before departure; thesis activities agreed with the supervisor and host contact.

☐ Partner procedures completed by its deadlines, including any Application Form and Accommodation Form; acceptance by the partner obtained.

☐ Financial Agreement signed before mobility begins and no later than 31 August 2027 for first-semester departures or 31 December 2027 for second-semester departures.

☐ IBAN of a bank or postal account, or prepaid card, held in the student's name provided; initial OLS test taken before departure for mobility exceeding 14 days, except in duly justified cases.

☐ Health coverage, safety, entry and residence requirements checked, including on Viaggiare Sicuri. Where required, Italian residence permit sent to erasmus@unitus.it: first semester by 31 July 2027, valid at least until 30 March 2028 and until the actual end of mobility; second semester by 30 September 2027, valid at least until 31 July 2028. Mobility cannot be authorised if the permit is not received by these deadlines. For extensions, evidence of validity for the entire period sent before authorisation.

☐ For mobility during the first year of a Master's degree following a Bachelor's degree, enrolment in the Unitus Master's programme completed before departure.

During and after mobility

☐ Arrival date confirmation sent to the Office for the advance payment; duration and Learning Agreement respected; any extensions authorised in advance; travel documents retained.

☐ Final attendance certificate with actual dates, Transcript of Records (including unsuccessful examinations) and travel documents submitted; GOMP recognition completed. At least one examination must be passed for the balance to be paid; this condition does not apply to the Unitus top-up. For thesis research, no examination is required: submit the host university's certificate of thesis research activities, final attendance certificate and travel documents.

☐ Participant Report (EU Survey), sent by the Beneficiary Module, completed online: payment of the balance is conditional on completion; otherwise, the entire grant must be repaid. Failure to earn credits or have them recognised does not result in withdrawal or repayment of the Unitus top-up.

Payments (Article 1.7): 80% advance within 30 days of signing the Grant Agreement, with arrival confirmation submitted; 20% balance and travel support after all required steps, adjusted to the actual certified duration. Payment is subject to funds being available and received.

Information: erasmus@unitus.it | Tel. +39 0761 357917 | Via S. Maria in Gradi 4, Viterbo. The full call and its annexes govern all details and conditions. In case of interpretation differences, the Italian text prevails.
